POWER, NON STOP!

GEN-NEXT TECHNOLOGY...

UPS 24x7 - DIGITAL & SINEWAVE 650, 900 & 1600

24x7

POWER, NON STOP!

The New Generation Range of UPS 24x7 from Microtek have:-

(Digital Signal Controller) based technology to provide:-

Unique **FCBC** (Float cum Boost charging) Technology,
Increases Battery Life and Performance by maintaining correct Battery Gravity.

&

Unique **USS** (Ultra Sonic Switching) Technology,
to provide, absolute silent operations to give you complete peace of mind.

The above technologies have following edge over others:-

- 1) Automatic selection of the battery type.
- 2) Fast Charging to keep battery ready for frequent emergencies.
- 3) Automatic revival of Deep Discharged Batteries.
- 4) High Efficiency technology to Save Electricity and hence Save Money.
- 5) Longer Backup to keep you working during Long Power Cuts.
- 6) Pure and Stable Sine Wave Output with very Low THD, under all Battery and Load conditions.
- 7) **In-Built BYPASS Switch**, This additional Bypass Switch enables you to isolate your UPS from mains whenever needed.

In Microtek 24x7 products we use Hi-Grade Low Watt Loss Silicon Steel Core in transformer with a watt Loss of <3.6W, whereas the other manufacturers are using core having Watt Loss of 7W to 10W and above.
